EDUCATION HISTORY

BS in Software Engineering

Institution: Shippensburg University - 2015

- Minor in Mathematics

WORK EXPERIENCE

Software Engineer

Apr 2019 to Present (5 years, 11 months)

- Independently designed, developed, and deployed *wortechcorp.com* using MEAN Stack, wireframes (in Figma), Docker, and AWS for scalability.
- Co-developed an enterprise MSP microservices solution with Fastify, message queues, JSON-RPC, Astro, React, PostgreSQL, Prisma, OIDC and OAuth 2.0 A&A.
- Lead DevOps engineer responsible for CI/CD of a widely adopted open-source Software Defined Radio (SDR) platform, optimizing microservices deployments with Git, Docker, and Kubernetes.
- Designed and tested Angular front-end components for mission-critical systems, ensuring high reliability and ease of use.

Founder & CEO

Apr 2018 to Present (5 years)

- Solo-built *streakperformance.com* (a golf fitness platform with hundreds of users) using Next.js (as PWA), MongoDB and Prisma ORM, TanStack Query, OIDC and OAuth 2.0 A&A middleware, GraphQL and REST APIs, AWS Lambda for scalable logic, Stripe integration for...
